Notice of variation with introductory note

The Environmental Permitting (England & Wales) Regulations 2010

Tradebe Gwent Limited

Bridgend Waste Management Centre
Factory Lane
Pencoed
Bridgend
CF35 5BQ

Variation application number
EPR/NP3233XX/V004

Permit number
EPR/NP3233XX

Bridgend Waste Management Centre

Permit number EPR/NP3233XX

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation changes the Registered Office Address for the Operator.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit

Description	Date	Comments
Application BM0893IC received	14/06/02	
Application Duly Made	20/06/02	Determination date of 20/10/02
1 st Schedule 4 notice issued to applicant	20/09/02	Given 28 days to respond (18/10/02)
Response to 1 st Schedule 4 received	18/10/02	New determination date of 18/11/02
2 nd Schedule 4 notice sent to applicant	11/12/02	Given 28 days to response (07/01/03)
Response to 2 nd Schedule 4 notice received	18/12/02	Part response
Response to 2 nd Schedule 4 notice received	08/01/03	Full response
Financial Provision agreement dated	16/05/03	
Permit BM0893IC determined	19/05/03	
Schedule 3 changes	13/04/06	WSM1 forms updated
Regulations 16 change requested	21/12/06	Company Structure / personal changes
Regulation 16 change response	11/01/06	Not accepted-further information requested
Regulation 16 change further information received	February 2006	
Regulation 17 Variation WP3135MX	07/11/06	Extension of improvement programme
Transfer Application NP3233XX received	25/09/07	
Transfer NP3233XX issued	23/11/07	
Company Name Change (Previously United Utilities (Gwent) Limited)	06/11/07	
Regulation 28 notice issued	03/12/07	Request to complete part B2.1 of part B form
Regulation 28 notice response received	January 2008	Response section B2.1 of part B form
Variation YP3734XU issued	04/04/08	Update of permit
Agency variation determined EPR/NP3233XX/V003	25/03/13	Agency variation to implement the changes introduced by IED
Variation Application EPR/NP3233XX/V004	18/02/15	Application to change registered office address
Variation Determined EPR/NP3233XX/V004	27/04/15	Varied Permit Issued

End of introductory note

Notice of variation

The Environmental Permitting (England and Wales) Regulations 2010

The Natural Resources Body for Wales ("Natural Resources Wales") in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2010 varies

Permit number
EPR/NP3233XX

issued to
Tradebe Gwent Limited ("the operator")

whose registered office is

**Atlas House
Third Avenue
Globe Park
Marlow
Buckinghamshire
SL7 1EY**

company registration number **00171493**

to operate a regulated facility at

**Bridgend Waste Management Centre
Factory Lane
Pencoed
Bridgend
CF35 5BQ**

as follows on the permit page the registered office is changed from C/O Willacy Oil Services Limited, Whittle Close Engineer Park, Sandycroft, Deeside, Flintshire, CH5 2QE to Atlas House, Third Avenue, Globe Park, Marlow, Buckinghamshire, SL7 1EY.

The notice shall take effect from 27/04/2015

Name	Date
	27 April 2015

Eirian Macdonald
Authorised on behalf of Natural Resources Wales

Permit

The Environmental Permitting (England and Wales) Regulations 2010

Permit number
EPR/NP3233XX

The Natural Resources Body for Wales ("Natural Resources Wales") authorises, under regulation 13 of the Environmental Permitting (England and Wales) Regulations 2010

Tradebe Gwent Limited ("the operator")

whose registered office is

Atlas House
Third Avenue
Globe Park
Marlow
Buckinghamshire
SL7 1EY

company registration number **00171493**

to operate an installation at

Bridgend Waste Management Centre
Factory Lane
Pencoed
Bridgend
CF35 5BQ

to the extent authorised by and subject to the conditions of this permit.

Name	Date
	27 April 2015

Eirian Macdonald

Authorised on behalf of Natural Resources Wales

Conditions

1 Management

1.1 General management

- 1.1.1 The activities shall be managed and operated:
- (a) in accordance with a management system, which identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents and non-conformances and those drawn to the attention of the operator as a result of complaints; and
 - (b) by sufficient persons who are competent in respect of the responsibilities to be undertaken by them in connection with the operation of the activities.
- 1.1.2 Records demonstrating compliance with condition 1.1.1 shall be maintained.
- 1.1.3 Any person having duties that are or may be affected by the matters set out in this permit shall have convenient access to a copy of it kept at or near the place where those duties are carried out.

1.2 Accidents that may cause pollution

- 1.2.1 The operator shall:
- (a) maintain and implement an accident management plan;
 - (b) review and record at least every 4 years or as soon as practicable after an accident, (whichever is the earlier) whether changes to the plan should be made;
 - (c) make any appropriate changes to the plan identified by a review.

1.3 Energy efficiency

- 1.3.1 The operator shall:
- (a) take appropriate measures to ensure that energy is used efficiently in the activities;
 - (b) review and record at least every 4 years whether there are suitable opportunities to improve the energy efficiency of the activities; and
 - (c) take any further appropriate measures by a review.

1.4 Efficient use of raw materials

- 1.4.1 The operator shall:
- (a) take appropriate measures to ensure that raw materials and water are used efficiently in the activities;
 - (b) maintain records of raw materials and water used in the activities;

- (c) review and record at least every 4 years whether there are suitable alternative materials that could reduce environmental impact or opportunities to improve the efficiency of raw material and water use; and
- (d) take any appropriate further measures identified by a review.

1.5 Avoidance, recovery and disposal of wastes produced by the activities

1.5.1. The operator shall:

- (a) take appropriate measures to ensure that waste produced by the activities is avoided or reduced, or where waste is produced it is recovered wherever practicable or otherwise disposed of in a manner which minimises its impact on the environment;
- (b) review and record at least every 4 years whether changes to those measures should be made; and
- (c) take any further appropriate measures identified by a review.

1.6 Site security

1.6.1. Site security measures shall prevent unauthorised access to the site, as far as practicable.

2. Operations

2.1 Permitted activities

2.1.1 The operator is authorised to carry out the activities specified in schedule 1 table S1.1 (the "activities").

2.1.2 Where there are wastes on site that are not subject to this permit then the wastes subject to the activities authorised under condition 2.1.1, shall be clearly identified.

2.2 The site

2.2.1 The activities shall not extend beyond the site, being the land shaded on the site plan at schedule 2 to this permit.

2.3 Operating techniques

2.3.1 The activities shall, subject to the conditions of this permit, be operated using the techniques and in the manner described in the documentation specified in schedule 1 table S1.2, unless otherwise agreed in writing by the Agency.

2.3.2 No raw materials or fuels listed in schedule 3 table S3.1 shall be used unless they comply with the specifications set out in that table.

2.3.3 Waste shall only be accepted if:

- (a) it is of a type and quantity listed in schedule 3 table S3.2; and
- (b) it conforms to the description in the documentation supplied by the producer and holder.

(c) it is only processed in the activity specified in Table S1.1 of Schedule 1.

2.3.4 Records shall be kept of all waste accepted onto the site.

2.3.5 The Operator shall ensure that where waste produced at the Permitted Installation(s) is sent to a waste recovery or disposal facility, the facility in question is provided with the following information, prior to receipt of the waste:

- The nature of the process producing the waste
- The composition of the waste
- The handling requirements of the waste
- The hazard classification associated with the waste
- The waste code of the waste

2.3.6 The Operator shall ensure that where waste produced at the Permitted Installation is sent to a landfill site, it meets the waste acceptance criteria for that landfill.

2.4 Off-site conditions

There are no off-site conditions under this section.

2.5 Improvement programme

2.5.1 The operator shall complete the improvements specified in schedule 1 table S1.3 by the date specified in that table unless otherwise agreed in writing by the Agency.

2.5.2 Except in the case of an improvement which consists only of a submission to the Agency, the operator shall notify the Agency within 14 days of completion of each improvement.

2.6 Pre-operational conditions

There are no pre-operational conditions in this permit.

2.7 Closure and decommissioning

2.7.1 The operator shall maintain and operate the activities so as to prevent or where that is not practicable, to minimise, any pollution risk on closure and decommissioning.

2.7.2 The operator shall maintain a site closure plan which demonstrates how the activities can be decommissioned to avoid any pollution risk and return the site to a satisfactory state.

2.7.3 The operator shall carry out and record a review of the site closure plan at least every 4 years.

2.7.4 The site closure plan (or relevant part thereof) shall be implemented on final cessation or decommissioning of the activities or part thereof.

2.8 Site protection and monitoring programme

- 2.8.1 The operator shall, within 2 months of the issue of this variation, submit a site protection and monitoring programme.
- 2.8.2 The operator shall implement and maintain the site protection and monitoring programme and shall carry out and record a review of it at least every 4 years.

3. Emissions and monitoring

3.1 Emissions to water, air or land

- 3.1.1 There shall be no point source emissions to water, air or land except from the sources and emission points listed in schedule 4 tables S4.1, S4.2 and S4.3.
- 3.1.2 The limits given in schedule 4 shall not be exceeded.
- 3.1.3 Total daily emissions from the emission point(s) set out in tables schedule 4 S4.1, S4.2 and S4.3 of a substance listed in schedule 4 table S4.2 shall not exceed the relevant limit in table S4.4.

3.2 Transfers off-site

- 3.2.1 Records of all the wastes sent off site from the activities, for either disposal or recovery, shall be maintained.

3.3 Fugitive emissions of substances

- 3.3.1 Fugitive emissions of substances (excluding odour, noise and vibration) shall not cause pollution. The operator shall not be taken to have breached this condition if appropriate measures have been taken to prevent or where that is not practicable, to minimise, those emissions.
- 3.3.2 Litter or mud arising from the activities shall not cause pollution. The operator shall not be taken to have breached this condition if appropriate measures have been used to prevent or where that is not practicable to minimise, the litter and mud.
- 3.3.3 Litter or mud arising from the activities shall be cleared from affected areas outside the site as soon as practicable.
- 3.3.4 All liquids, whose emission to water or land could cause pollution, shall be provided with secondary containment, unless the operator has used other appropriate measures to prevent or where that is not practicable, to minimise, leakage and spillage from the primary container.

3.4 Odour

- 3.4.1 Emissions from the activities shall be free from odour at levels likely to cause annoyance outside the site, as perceived by an authorised officer of the Agency, unless the operator has used appropriate measures, including those specified in schedule 1 table S1.4, to prevent or where that is not practicable to minimise the odour.

3.5 Noise and vibration

- 3.5.1 Emissions from the activities shall be free from noise and vibration at levels likely to cause annoyance outside the site, as perceived by an authorised officer of the Agency, unless the operator has used appropriate measures to prevent or where that is not practicable to minimise the noise and vibration.

3.6 Monitoring

- 3.6.1 The operator shall, unless otherwise agreed in writing by the Agency, undertake monitoring for the parameters, at the locations and at not less than the frequencies specified in the following tables in schedule 4 to this permit:
- (a) point source emissions specified in tables S4.1, S4.2 and S4.3
- 3.6.2 The operator shall maintain records of all monitoring required by this permit including records of the taking and analysis of samples, instrument measurements (periodic and continual), calibrations, examinations, tests and surveys and any assessment or evaluation made on the basis of such data.
- 3.6.3 Monitoring equipment, techniques, personnel and organisations employed for the emissions monitoring programme specified in condition 3.6.1 shall have either MCERTS certification or MCERTS accreditation (as appropriate) unless otherwise agreed in writing by the Agency.
- 3.6.4 Permanent means of access shall be provided to enable sampling/monitoring to be carried out in relation to the emission points specified in schedule 4 tables S4.1, S4.2 and S4.3 unless otherwise specified in that schedule.

4. Information

4.1 Records

- 4.1.1 All records required to be made by this permit shall:
- (a) be legible;
 - (b) be made as soon as reasonably practicable;
 - (c) if amended, be amended in such a way that the original and any subsequent amendments remain legible, or are capable of retrieval; and
 - (d) be retained, unless otherwise agreed in writing by the Agency, for at least 6 years from the date when the records were made, or in the case of the following records until permit surrender:
 - (i) the site protection and monitoring programme.
- 4.1.2 Any records required to be made by this permit shall be supplied to the Agency within 14 days where the records have been requested in writing by the Agency.

- 4.1.3 All records required to be held by this permit shall be held on the installation and shall be available for inspection by the Agency at any reasonable time.

4.2 Reporting

- 4.2.1 A report or reports on the performance of the activities over the previous year shall be submitted to the Agency by 31 January (or other date agreed in writing by the Agency) each year. The report(s) shall include as a minimum:
- (a) a review of the results of the monitoring and assessment carried out in accordance with this permit against the relevant assumptions, parameters and results in the assessment of the impact of the emissions submitted with the application;
 - (b) where the operator's management system encompasses annual improvement targets, a summary report of the previous year's progress against such targets;
 - (c) the annual production/treatment data set out in schedule 5 table S5.2;
 - (d) the performance parameters set out in schedule 5 table S5.3 using the forms specified in table S5.4 of that schedule; and
 - (e) details of any contamination or decontamination of the site which has occurred.
- 4.2.2 Within 28 days of the end of the reporting period the operator shall, unless otherwise agreed in writing by the Agency, submit reports of the monitoring and assessment carried out in accordance with the conditions of this permit, as follows:
- (a) in respect of the parameters and emission points specified in schedule 5 table S5.1;
 - (b) for the reporting periods specified in schedule 5 table S5.1 and using the forms specified in schedule 5 table S5.4; and
 - (c) giving the information from such results and assessments as may be required by the forms specified in those tables.
- 4.2.3 A summary report of the waste types and quantities accepted and removed from the site shall be made for each quarter. It shall be submitted to the Agency within one month of the end of the quarter and shall be in the format required by the Agency.
- 4.2.4 The operator shall, unless notice under this condition has been served within the preceding 4 years, submit to the Agency, within 6 months of receipt of a written notice, a report assessing whether there are other appropriate measures that could be taken to prevent, or where that is not practicable, to minimise pollution.
- 4.2.5 All reports and notifications required by the permit shall be sent to the Agency using the contact details supplied in writing by the Agency.
- 4.2.6 The results of reviews and any changes made to the site protection and monitoring programme shall be reported to the Agency, within 1 month of the review or change.

4.3 Notifications

- 4.3.1 The Agency shall be notified without delay following the detection of:
- (a) any malfunction, breakdown or failure of equipment or techniques, accident, or fugitive emission which has caused, is causing or may cause significant pollution;

- (b) the breach of a limit specified in the permit;
 - (c) any significant adverse environmental effects.
- 4.3.2 Any information provided under condition 4.3.1 shall be confirmed by sending the information listed in schedule 6 to this permit within the time period specified in that schedule.
- 4.3.3 Prior written notification shall be given to the Agency of the following events and in the specified timescales:
- (a) as soon as practicable prior to the permanent cessation of any of the activities;
 - (b) cessation of operation of part or all of the activities for a period likely to exceed 1 year; and
 - (c) resumption of the operation of part or all of the activities after a cessation notified under (b) above.
- 4.3.4 The Agency shall be given at least 14 days notice before implementation of any part of the site closure plan.
- 4.3.5 Where the Agency has requested in writing that it shall be notified when the operator is to undertake monitoring and/or spot sampling, the operator shall inform the Agency when the relevant monitoring is to take place. The operator shall provide this information to the Agency at least 14 days before the date the monitoring is to be undertaken.
- 4.3.6 The Agency shall be notified within 7 days of any changes in technically competent management and the name of any incoming person together with evidence that such person has the required technical competence.
- 4.3.7 The Agency shall be provided, within 14 days of the operator or any relevant person being convicted of a relevant offence, (unless such information has already been notified to the Agency), with details of the nature of the offence, the place and date of conviction, and the sentence imposed.
-
- 4.3.8 The Agency shall be notified within 14 days of the operator and/or any relevant person lodging an appeal against a conviction for any relevant offence and of the outcome when the appeal is decided.
- 4.3.9 The Agency shall be notified within 14 days of the occurrence of the following matters, except where such disclosure is prohibited by Stock Exchange rules:
- (a) any change in the operator's trading name, registered name or registered office address;
 - (b) any change to particulars of the operator's ultimate holding company (including details of an ultimate holding company where an operator has become a subsidiary); and
 - (c) any steps taken with a view to the operator going into administration, entering into a company voluntary arrangement or being wound up.

4.4 Interpretation

- 4.4.1 In this permit the expressions listed in schedule 7 shall have the meaning given in that schedule.

Schedule 1 – Operations

Table S1.1 activities

Activity listed in Schedule 1 of the PPC Regulations	Description of specified activity and WFD Annex IIA and IIB operations	Limits of specified activity and waste types
S5.3 A(1)(a) : disposal of hazardous waste	D15 Storage pending physico-chemical treatment D9 Physico-chemical treatment	Treatment consisting of pH adjustment, settlement, separation, addition of coagulant & flocculent and blending of compatible wastes.
	D15 Storage pending blending D13 Blending or mixing of wastes	Waste types in table S3.2 column 2, excluding wastes with the following properties: H1 Explosive / H3A (indents I to V) Highly Flammable / H9 Infectious / H12 Contact with water or an acid liberates toxic or very toxic gasses EWC codes ending in 99 must be agreed in writing with the Environment Agency before being accepted at the site.
5.3 A(1)(b) : disposal of waste oils	R13 storage of waste oil pending separation R3 phase separation including storage of wastes from separation	Treatment consisting of screening, settlement, separation, pH adjustment, addition of coagulant & flocculent and blending with other recovered oils. Waste types in table S3.2 column 3, excluding wastes with the following properties: H1 Explosive / H3A (indents I to V) Highly Flammable / H9 Infectious / H12 Contact with water or an acid liberates toxic or very toxic gasses EWC codes ending in 99 must be agreed in writing with the Environment Agency before being accepted at the site.
	D15 Storage pending physico-chemical treatment D9 Physico-chemical treatment	Treatment consisting of pH adjustment, settlement, separation, addition of coagulant & flocculent and blending of compatible wastes
5.3A(1)(c)(ii) : disposal of non-hazardous waste	D15 Storage pending physico-chemical treatment D9 Physico-chemical treatment	Treatment consisting of pH adjustment, settlement, separation, addition of coagulant & flocculent and blending of compatible wastes
	D15 Storage pending blending D13 Blending or mixing of wastes	Waste types in table S3.2 column 1. EWC codes ending in 99 must be agreed in writing with the Environment Agency before being accepted at the site.
Directly Associated Activity		
Discharge to foul sewer	Discharge of treated effluents from the installation	From treated effluent storage tanks to point of entry to sewer
Water discharge to controlled waters	Discharge of installation drainage from the installation	From surface water drains to point of entry to controlled waters

Table S1.2 Operating techniques

Description	Parts	Date Received
Regulation 28 notice response	Response to Question B2.1 of the Part B application form excluding the response to Questions B2.1.7 & the following parts of B2.1.9: part (iii) Sampling of bulk liquid waste, drummed wastes and laboratory smalls; and part (v) Records	January 2008

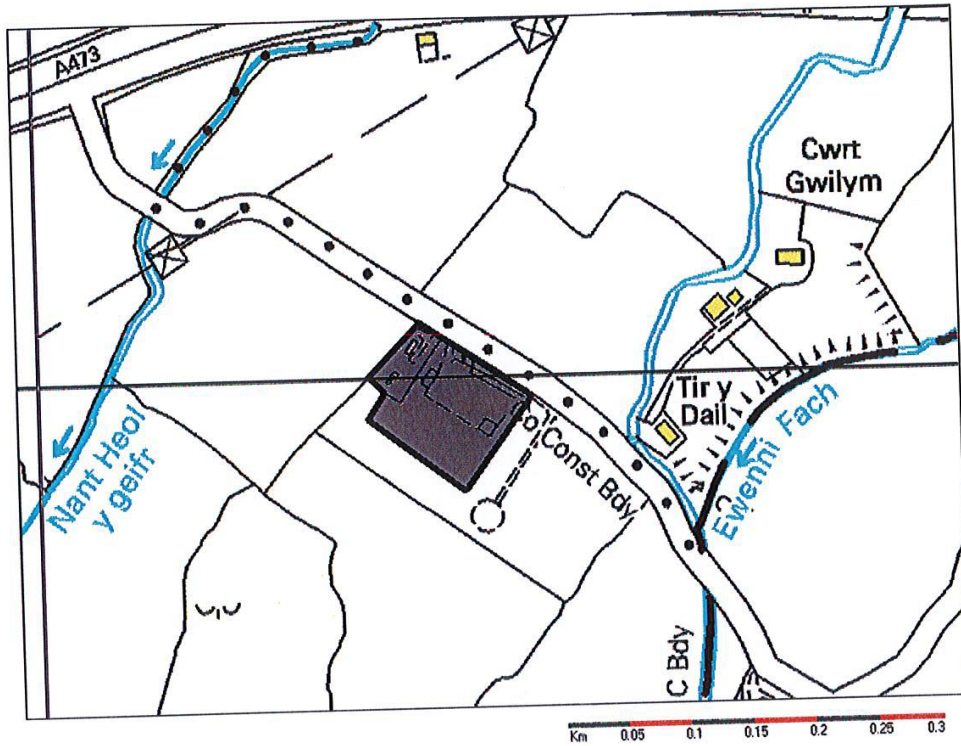

Table S1.3 Improvement programme requirements

Reference	Requirement	Date
IP1	The Operator shall produce and implement written procedures (and any amendments to them) that accord with section 2.1.1 of Sector Guidance Note S5.06, December 2004, to assess waste prior to acceptance on the site.	4 July 2008
IP2	The Operator shall produce and implement written procedures (and any amendments to them) that accord with section 2.1.2 of Sector Guidance Note S5.06, December 2004, to cover: sampling of bulk wastes, drummed wastes and laboratory smalls; and records.	4 July 2008
IP3	The operator shall provide and maintain monitoring of effluent flow to sewer to the MCERTS standard. A copy of the first MCERTS site conformity inspection certificate shall be submitted to the Environment Agency.	4 April 2009
IP4	Undertake an assessment of the impact on the water environment from current emissions of effluent to sewer. The operator shall use the methodology prescribed in the Agency's guidance 'Environmental Assessment and Appraisal of BAT' (Ref. IPPC H1) in making this assessment. The Operator shall identify substances present in the effluent that are considered significant, and submit proposed emission limit values for these substances in the form of a report. Flow rate must also be considered as part of this assessment. The report shall also include an effluent monitoring plan for any key substances identified and an action plan to reduce releases of those substances that are considered significant as part of the H1 Assessment. The operator shall implement any improvements or measures identified. Once approved, the limits and parameters should supersede those prescribed in table S4.4 of this permit.	4 Oct 2008

Table S1.4 Appropriate measures for odour

Measure	Dates
<p>Odorous emissions action plan</p> <p>i) On detection or notification of aerial emissions of odour that is being, or likely to be, transported beyond the installation boundary, at such levels that they are likely to cause pollution of the environment, harm to human health or serious detriment to the amenity of the locality, the source of the odour shall be identified and remedial action taken with immediate effect to mitigate the effects of the odour, such measures may include immediate removal of the waste from the installation.</p> <p>ii) The incident and remedial action shall be recorded in the Installation diary.</p>	-

Schedule 3 - Waste types, raw materials and fuels

Table S3.1 Raw materials and fuels

Raw materials and fuel description	Specification	Date
Application	The response to question B2.2 given in sections (01/BWTC/04) of the application	14/06/02
Response to 2 nd Schedule 4 Notice art 1 dated 11/12/02	Response to attached schedule of questions; Appendix 12 to document reference number 01/BWTC/03	18/12/02

Table S3.2 Permitted waste types and quantities

Maximum quantity	Total Quantity of Waste (excluding domestic wastes that are received for direct discharge to sewer) shall not exceed 115,000 tonnes / year, of which no more than 75,000 tonnes shall be Hazardous waste. No more than 778 cubic metres of waste shall be stored on the installation at any time.	Column 1 - 5.3A(1)(c)(ii): disposal of non-hazardous waste (Yes / No)	Column 2 - S5.3 A(1)(a): disposal of hazardous waste (Yes / No)	Column 3 - 5.3 A(1)(b): disposal of waste oils (Yes / No)
Waste code	Description			
01	WASTES RESULTING FROM EXPLORATION, MINING, QUARRYING, AND PHYSICAL AND CHEMICAL TREATMENT OF MINERALS			
01 03	wastes from physical and chemical processing of metalliferous minerals			
01 03 04*	acid-generating tailings from processing of sulphide ore		Y	
01 03 06	tailings other than those mentioned in 01 03 04 and 01 03 05	Y		
01 04	wastes from physical and chemical processing of non-metalliferous minerals			
01 04 11	wastes from potash and rock salt processing other than those mentioned in 01 04 07	Y		
01 04 12	tailings and other wastes from washing and cleaning of minerals other than those mentioned in 01 04 07 and 01 04 11	Y		
01 05	drilling muds and other drilling wastes			
01 05 04	freshwater drilling muds and wastes	Y		
01 05 05*	oil-containing drilling muds and wastes			Y
01 05 07	barite-containing drilling muds and wastes other than those mentioned in 01 05 05 and 01 05 06	Y		
02	WASTES FROM AGRICULTURE, HORTICULTURE, AQUACULTURE, FORESTRY, HUNTING AND FISHING, FOOD PREPARATION AND PROCESSING			
02 01	wastes from agriculture, horticulture, aquaculture, forestry, hunting and fishing			
02 01 01	sludges from washing and cleaning	Y		
02 01 09	agrochemical waste other than those mentioned	Y		

Table S3.2 Permitted waste types and quantities				
Maximum quantity	Total Quantity of Waste (excluding domestic wastes that are received for direct discharge to sewer) shall not exceed 115,000 tonnes / year, of which no more than 75,000 tonnes shall be Hazardous waste. No more than 778 cubic metres of waste shall be stored on the installation at any time.	Column 1 - 5.3A(1)(c)(ii): disposal of non-hazardous waste (Yes / No)	Column 2 - S5.3 A(1)(a): disposal of hazardous waste (Yes / No)	Column 3 - 5.3 A(1)(b): disposal of waste oils (Yes / No)
Waste code	Description			
	in 02 01 08			
02 02	wastes from the preparation and processing of meat, fish and other foods of animal origin			
02 02 01	sludges from washing and cleaning	Y		
02 02 02	animal-tissue waste	Y		
02 02 03	materials unsuitable for consumption or processing	Y		
02 02 04	sludges from on-Installation effluent treatment	Y		
02 03	wastes from fruit, vegetables, cereals, edible oils, cocoa, coffee, tea and tobacco preparation and processing; conserve production; yeast and yeast extract production, molasses preparation and fermentation
